ACADEMIC RECOVERY PROGRAMS

Not studying or doing class assignments will always lead to poor academic outcomes. Often students do not realize how serious this is until they have failed their grade level. Many regret their poor choices because they knew that they had the ability to excel. Unfortunately, they made the wrong decision, which resulted in failing a class or classes. Traditionally, the only recourse for a retained student would be summer school. There was no other option - until NOW!

Winter School & Spring School

There are two semesters in an academic school year, which includes four (4) marking periods. If a student fails a subject in the 1st semester, retention is automatic. This student must wait five months before that subject can be retaken for a passing grade. Here are two academic recovery program options for a student who has failed in marking periods one (1) and two (2).

Winter School

This module provides an intense system for students to make up a failed subject from the 1st marking period. The module is offered in the Month of December, only.

Module 1: (\$450)

- 1 Subject
- 10 Days
- 2 hours (Online or Onsite Instruction)

Module 2: (\$900)

- 2 Subjects
- 10 Days
- 4 hours (Online or Onsite Instruction)

Module 3: (\$1,350)

- 3 Subjects
- 10 Days
- 6 hours (Online or Onsite Instruction)

Spring School

This module is designed to accomplish the same objective as Winter School, except it is offered only during the week of Spring Break.

Module 1: (\$450)

- 1 Subject
- 5 Days
- 2 hours (Online or Onsite Instruction)

Module 2: (\$900)

- 2 Subjects
- 5 Days
- 4 hours (Online or Onsite Instruction)

Module 3: (\$1,350)

- 3 Subjects
- 5 Days
- 6 hours (Online or Onsite Instruction)

After the module is completed, the student will receive their new grade or grades to replace the failing grade or grades. If a student fails a module, then they will be retained and have to attend traditional summer school.
